- To restore oral health with minimum fuss and time.

## SERVICES PROVIDED

- Complete Family Dental Care
- Crowns, Bridges and Veneers.
- Dentures and Denture repairs.
- Cosmetics including bleaching
- Children dentistry
- Preventive Care

## ABOUT YOUR DENTAL SURGEON

**Paresh Patel (Principal dental surgeon)** qualified in July 1996 from Kings College with a Bachelor of Dental Surgery Degree. He has worked in general practice since then with a special interest in Cosmetic and Paediatric dentistry. He has special interest in post-graduate education, and has completed the Diploma in General Dental Practice.

**Kushal Kothari** (Associate dental surgeon), qualified in July 1999 from Kings College with a Bachelor of Dental Surgery Degree. He has worked in general practice since then with a special interest in Cosmetic dentistry

## **ABOUT YOUR DENTAL PRACTICE**

At both our practices we aim to provide complete health care all under one roof. There is good accessibility by public transport. The practices have been installed with brand new equipment in a modern and comfortable environment.

**Emergencies:** Whenever possible please contact us about emergencies during normal surgery hours. If you need to be seen the same day please get in touch as early in the day as possible. **In case of an emergency out of hours please ring 0787 906 458**

## **TYPES OF TREATMENT**

There are currently two types of treatment available.

- NHS treatment
- Private treatment

## **NHS Treatment**

This is available at all adults and children patients. Certain categories of adult patients are exempt from charges. These include 18 year old students, pregnant women and nursing mothers within the first year, Patients who are receiving income support, family tax credit and disability working allowance recipients. All children treatment on the NHS is free.

Adults who do not fall into any of the above categories will need to pay for their treatment at fixed prices pre-determined by the NHS.

## **Private Treatment**

Bleaching, white fillings and white crowns on molar teeth are unavailable on the NHS. Our aim is to deliver high quality private care at realistic prices. Most cosmetic treatment is only available privately. Estimates will always be provided before-hand.

## **METHODS OF PAYMENT**

We accept cash and cheques

Anxious and nervous patients are welcome at Elite Dental Care. We are understanding and sympathetic towards such people, and endeavour to make every dental visit as comfortable as possible. We are guided by a pre-determined patient signal to stop at any time during a dental procedure.

## **HYGIENE AND SAFETY MEASURES**

In order to eliminate cross infection:

- Disposable gloves are worn by both the dental surgeon and the nurse which is changed between each patient.
- All instruments are sterilised in an autoclave in adherence to regulations determined by the Local Health Authority.
- Where possible we endeavour to use disposable products
